Accurpress-Manual - Carlson Fabrication Solutions Figure 1 Modern press brakes provide operators with the assistance needed to maximize time spent bending, not setting up the press brake or methodically creating the program Editor's Note: This article is adapted from Paul LeTang's presentation made at FABTECH ® , Nov. 16, 2016, Las Vegas. Understanding modern press brakes - The FABRICATOR Sheet metal press brake: bending. Haco is a specialist in sheet metal fabrication and routinely produces press brakes for a diverse group of industries on both ends of the spectrum. Our current assortment includes press brakes with capacities from 40 to 2,000 tons and working lengths from 1.6 to 10 m. To better serve the needs of our customers our product range extends to custom press brakes. Sheet metal press brake: bending - Haco Every press brake has a concentrated load limit calculated in tons per inch in the center of the machine.

Exceeding the tons-per-inch limit can damage the machine, the tooling, or the formed part. For example, I once saw a shop apply the full tonnage of a 600-ton press brake over an 8-in. part in the center of the brake. Big no-no — using the ...
