Full text of "SMW RT375VN Indexer Manual" We did get the correct manual for the model 50 and it lists E9 as a Over temperature, due to cooling fan inoperable or working duty cycle is too high. With the new manual it lists the E7 as Over current due to Motor or motor cable short circited, or controller output stage component failure. SMW Indexing head with model 50 control problem I have an old SMW System 50 and

RT-3J Indexer set up. We just got this set up and running after it's been sitting for the last decade or more. Everything works just fine, my issue is going to be program capacity of the System 50 Controller. I have the manual and it does not mention being able to send the controller commands via RS-232, but was told by an SMW tech that this may be possible. SMW System 50 Indexer Info -
